

The advertisement features a close-up of a rifle's barrel on the left, set against a background of green foliage. Overlaid on the right is a dark, semi-transparent digital interface with various data points, graphs, and technical diagrams. In the top right corner, the Desert Tech logo is displayed, consisting of a stylized 'H' icon and the text 'DESERTTECH' with 'TOMORROWS WEAPONS' underneath. The main title 'MDR' is written in large, bold, white capital letters, with 'MICRO DYNAMIC RIFLE' in smaller white capital letters below it. A thick, grey, angular horizontal bar is positioned below the title. At the bottom left, a legal notice is printed in small white text.

MDR[®]

DESIGNED INNOVATION

THE MDR IS DESIGNED FOR FUTURE DEFENSE NEEDS. Its compact size and superior ergonomics maximize its portability without sacrificing speed, power, or precision. The MDR allows mission specific adaptability by changing the rifle's length, sound signature, and caliber. Its fully-ambidextrous design allows seamless shoulder transitions. The MDR delivers advanced firepower for the future patriot.

9

MDR
PORTABLE

The MDR has unrivaled portability because it is lightweight, compact, ergonomic, and balanced with an overall length of 26.2" and a weight of 8.4 pounds.

AMBIDEXTROUS

The MDR is fully ambidextrous with no modification necessary. Our patented forward ejection mechanism and intuitive controls set a new bullpup standard for speed and precision.

SPECIFICATIONS

Caliber	Barrel Length	Rifle Length	Weight	Barrel Twist
.223 Wylde	16" (40.64 cm)	26.2" (66.55 cm)	8.4 lb (3.81 kg)	1 in 8
.308 Winchester	16" (40.64 cm)	26.2" (66.55 cm)	8.4 lb (3.81 kg)	1 in 10
.300 BLK	16" (40.64 cm)	26.2" (66.55 cm)	8.4 lb (3.81 kg)	1 in 8

MDR[®]

ADAPTABLE

The MDR is adaptable in both size and caliber. It can quickly convert between multiple calibers, and its gas-block incorporated picatinny rail and the Desert Tech barrel retention system allows for consistent return-to-zero between conversions. The barrel is also truly free-floated by design so barrel whip does not affect accuracy.

AVAILABLE CONVERSIONS

Each conversion kit comes with a barrel assembly, bolt head, magazine, and magazine well adapter (if applicable).

.223 Wylde
.308 Winchester
.300 BLK

See previous page for a complete list of technical specifications.

Each rifle includes a chassis and one complete conversion kit.

13

REFLEX HANDGUARD

MINIMIZES LENGTH

The MDR Reflex Handguard is designed for use with an over-barrel suppressor. This type of suppressor keeps the rifle both supremely compact and balanced even when suppressed, and the MDR Reflex Handguard aids the shooters maneuverability by adding an extra 1.5" to the handguard for additional grip space.

MAXIMIZES PORTABILITY

Over-barrel suppressors redirect muzzle gases to the back of the suppressor before exiting, which greatly reduces gas blow-back, in addition to reducing the overall suppressed rifle length compared to traditional end-mount suppressors.
